Dear VUSD Parents:

For the students of Visalia Unified this is going to be another wonderful year! School budgets have continued to improve and that has allowed us to lower class sizes and restore programs that were reduced during the recession. New Link Learning Academies are now at every high school. These opportunities will provide a wonderful career-themed approach for our students preparing them for college and career. Many Measure E facility projects are being completed around the community. Solar panels are generating energy and reducing our electrical costs. The middle school project is on schedule and the new classroom building at Redwood High is done. Lastly, after the first full year with the new state standards and new assessments, we are confident that the changes are right for our students!

Perhaps, the best part of my job is that I personally visit classrooms throughout the school year; and I see wonderful teachers, fabulous kids, and a lot of learning going on! We know that no matter what else is going on kids and their parents want the best possible education and are putting their faith in our local school district to provide it for them.

Everyday, students and teachers engage in learning in our classrooms, and the results of that learning ensure our students will be successful in the future. Over the years, we have come to expect continued academic improvement across all curricular areas. Now that we have new standards and a new assessment system, I am sure that our students will continue to grow academically. Our district is fortunate in that our attendance rates are high, our suspension and expulsion rates have dropped dramatically, and the district dropout rate is at an all-time low.

The Board and District have a renewed commitment to meet the needs of all students; and our educational program remains rich with emphasis on visual and performing arts, athletics, and extra-curricular and co-curricular activities. The development of the Local Control Accountability Plan (LCAP) has given us additional support programs for our most underserved students and provides a clear path to academic success.

It is my good fortune to serve as VUSD’s superintendent. We have a thoughtful and dedicated School Board, caring and talented teachers, professional administrators, and a strong and dedicated support staff. Most of all, Visalia is blessed with incredible young people and families who care deeply for the success of their children. As educators, we believe in the power of the human spirit and the potential of every student. By working together, we can ensure that every student succeeds!

Sincerely,

Craig Wheaton

PARENT AND STUDENT RIGHTS
YOUR RIGHTS AND RESPONSIBILITIES

As the parent of a child in California Public Schools

California state law governs the operations of public schools. The State Legislature passes new laws affecting public education, as well as laws directing local school districts to undertake new responsibilities. These laws often require that school districts inform parents of the opportunities and protections to which they are entitled. The following is a summary of state law provisions with which parents should be familiar. In most cases, the laws have been summarized with the California Education Code number provided if additional information is needed. (The symbol “E.C.” stands for Education Code, which is the area of the state law that affects public schools.)

NOTIFICATION OF RIGHTS

School boards must notify parents of their rights to service and programs offered by public schools. Parents must sign a notification form and return it to their child’s school acknowledging they have been informed of their rights. By signing the form, the parent (guardian) does not indicate consent to take part in any particular program (E.C. 48980).

PARENT'S/GUARDIAN’S RIGHTS NOTIFICATION
ACCESSING STUDENT RECORDS
(Ed. Code Section 49063)

You are hereby notified of your rights and responsibilities as a parent/guardian of a child enrolled in Visalia Unified School District (Ed. Code Section 48980).

Pupil records maintained by the Visalia Unified School District consist of personal identifying information, subjects taken, grades received, standardized test results, attendance records, and health records. Pupil records are maintained at each school where the pupil is attending. The school principal or his/her designee is responsible for maintaining each type of pupil records and the information contained therein. The green folder containing special education information and the red folder containing 504 information is kept in the cum. The confidential file containing psychological information is also kept in the Student Services Department in a locked file.

Pupil records are accessible only to parents or legal guardians, a pupil 16 years or older or having completed the 10th grade, and school officials who have a legitimate educational interest in the pupil. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has contracted to perform a special task (such as a youth services officer, an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A legitimate educational interest is one held by officials or employees whose duties and responsibilities to the district, whether routine or as a result of special circumstances, require that they have access to student records in order to fulfill his or her professional responsibility to the school district. Officials of other public school systems or post-secondary institutions where a student intends or is directed to enroll may request records of the enrolling student from our school district for the purposes of enrollment or transfer.

Section 4155 of the Elementary and Secondary Education Act of 1965 requires that each school has in place a procedure to facilitate the transfer of disciplinary records with respect to a suspension or expulsion. Parents/Guardians have a right to review and challenge the contents of their child’s records. (Ed. Code Sections 49069-49070)

Regarding student records, parents have the right to file a complaint with the family Policy Compliance Office, US Department of Education, 400 Maryland Ave., Southwest, Washington, D.C. 20202(1-800-872-5327)

RIGHTS TO REFRAIN FROM THE HARMFUL OR DESTRUCTIVE USE OF ANIMALS

Each teacher of a course that uses live or dead animals or animal parts, except for agricultural classes, shall inform students of their right to refrain from harmful or destructive use of animals. Students may then notify the teacher of their objection. If a student’s objection is substantiated by a note from the parent/guardian and if the teacher believes an adequate alternative educational project is
possible, the teacher may work with the student to develop and agree upon an alternative project which would provide the knowledge, information or experience required by the course of study. The alternative project shall involve time and effort comparable to that required by the original project.

A teacher’s decision in determining if a student may pursue an alternative project or be excused from the project must not be arbitrary or capricious. Students who choose alternative projects shall pass all examinations in order to receive course credit. The students may seek alternative tests to any tests requiring the harmful or destructive use of animals. (Ed. Code. Sections 32255-32255.6)

**RELEASE OF DIRECTORY INFORMATION**

The Superintendent or designee may authorize the release of student directory information to representatives of the news media, employers, prospective employers or nonprofit organizations as provided by law.

Colleges and military recruiters shall have access to a secondary student’s name, address and telephone number upon request, unless the parent/guardian or the secondary student has specified in writing that the information shall not be released without prior written parent consent.

Under no circumstances shall directory information be disclosed to a private profit-making entity, except for employers, prospective employers, and representatives of the news media in accordance with Board Policy. Private schools and colleges may be given the names and addresses of 12th grade students and students who are no longer enrolled provided that they use this information only for purposes directly related to the institution's academic or professional goals.

Directory information means information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy disclosed. Such student information includes: name, address, date and place of birth, dates of attendance, degrees and awards received, and most recent previous school attended.

The district shall not release directory information regarding any student whose parent/guardian has notified the district in writing that such information shall not be released without the parent/guardian’s prior consent. Forms are available in each high school office, page 15 of this directory and on the Visalia Unified School District web site, under Student Services, Directory Information. [http://vusd.org](http://vusd.org)

**Military and College Recruiters**

The district shall not release to Military or College recruiters the name, address, and telephone number of any secondary student who has, or whose parent/guardian has, requested in writing that this information not be released without prior written parent consent. Forms are available in each high school office, page 15 of this directory and on the Visalia Unified School District web site, under Student Services, Directory Information. [http://www.vusd.org](http://www.vusd.org).

**DISTRICT POLICIES**

**UNIFORM COMPLAINT PROCEDURES**

The Board of Education recognizes that the district has primary responsibility for insuring that it complies with applicable state and federal laws and regulations governing educational programs. The district shall investigate and seek to resolve complaints at the local level. The district shall follow the Uniform Complaint Procedures (UCP) when addressing complaints alleging:

Unlawful discrimination based on ethnicity, religion, age, sex, gender, sexual orientation, race, ancestry, national origin, color, or physical or mental disability, or failure to comply with state and/or federal laws in adult education, consolidated categorical programs, vocational education, and special education programs. The Board acknowledges and respects student and employee rights to privacy. Discrimination complaints shall be investigated in a manner that protects the confidentiality of the parties and the facts. This includes keeping the identity of the complainant confidential except to the extent necessary to carry out the investigation or proceedings, as determined by the Superintendent or designee on a case-by-case basis.

Complaints alleging unlawful discrimination may be filed by a person who alleges that he/she personally suffered unlawful discrimination or by a person who believes that an individual or any specific class of individuals has been subjected to unlawful discrimination. The complaint must be initiated no later than six months from the date when the alleged discrimination occurred or when the complainant first obtained knowledge of the facts of the alleged discrimination. (5 CCR 4630)
The superintendent shall ensure that employees designated to investigate complaints are knowledgeable about the laws and programs for which they are responsible. Such employees may have access to legal counsel as determined by the superintendent or designee.

Compliance Officers
The Board of Education designates the superintendent or designee to receive and investigate complaints and ensure district compliance with law. Contact may be made to:

- **Assistant Superintendent Office** (730-7517) Consolidated Categorical Aid Programs, Special Education, Migrant Education, Instructional Materials, Adult Basic Education, Vocational Education
- **Robert Gröeber, Assistant Superintendent** (730-7529) Child Nutrition Programs
- **Tamara Ravalin, Assistant Superintendent** (730-7552) Human Resources Development, Teacher vacancy

Notifications
Students and parents or guardians will receive their annual UCP notice through distribution of our district’s annual notification of District Information Directory, and through a UCP flyer that will be translated into appropriate second language groups.

Certificated and classified employees will receive their annual notification through their respective handbooks that are reviewed at the first staff meeting of the year. Copies of the local educational agency complaint procedures shall be available free of charge.

Procedures
The following procedures shall be used to address all complaints which allege that the district has violated federal or state laws or regulations governing educational programs. Compliance officers shall maintain a record of each complaint as required for compliance with the California Code of Regulations, Title 5, Section 4632.

**Step 1: Filing of Complaint**
Any individual, public agency, or organization may file a written complaint of alleged noncompliance by the district. The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and a date stamp.

**Step 2: Mediation**
The Board recognizes that a neutral mediator can often suggest an early compromise that is agreeable to all parties in a dispute. The superintendent shall ensure that the mediation results are consistent with state and federal law regulations. The use of mediation shall not extend the district’s time lines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time (5 CCR 4631).

**Step 3: Investigation of Complaint.**
The compliance officer shall hold an investigative meeting within 5 days of receiving the complaint or an unsuccessful attempt to mediate the complaint. This meeting shall provide an opportunity for the complainant and/or his/her representatives to repeat the complaint orally. The complainant and/or his/her representative and the district’s representatives shall also have an opportunity to present information relevant to the complaint. Parties to the dispute may discuss the complaint and question each other or each other’s witnesses. (5 CCR 4631)

**Step 4: District Response.**
Within 45 days of receiving the complaint, the compliance officer shall prepare and send the complainant a written report of the District’s investigation and decision as described in Step 5 below. If the complainant is dissatisfied with the compliance officer’s decision, he/she may, within five days, file his/her complaint in writing with the Board. If the Board hears the complaint, the compliance officer shall send the Board’s decision to the complainant within 60 days of the district’s initially receiving the complaint or within the time period that has been specified in a written agreement with the complainant. (5CCR 4631)

**Step 5: Final Written Decision.**
Complainant will receive the final written decision within 60 days of filing the complaint. The report shall include notice of the complainant’s right to appeal, within 15 days, the decision to the California Department of Education, and procedures to be followed for initiating such an appeal. (5 CCR 4631)

These interests may be conceived by him/her totally and independently or may result in whole or in part from a presentation by his/her teachers of choices of learning projects; (d) Maximize the opportunity for teachers, parents, and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process; (e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located. CAREER TECHNICAL EDUCATION

Visalia Unified School District offers an exciting array of career technical education programs that focus on agriculture, business, graphic design, computer technology, health science, industrial technology, hospitality and culinary arts, engineering, media arts, and many other career areas. These programs are rigorous and relevant and strive to ensure that participating students are college and career ready.

Career Technical Education pathways benefit all students, including those planning to attend a college or university after graduating from high school. The District CTE programs build around a set of courses called a career pathway. These pathways allow students to take part in a four-year career program that leads to a technical certification, community college associate degree, or a 4-year college degree. In addition to our traditional career pathways programs, VUSD offers California Partnership Academies and Linked Learning Academies. These academies place students in cohorts to ensure that the career theme is embedded during their educational day. Academy themes include Engineering, Business, Health Science, Computer Science, and Media Arts.

Anyone wanting more information should contact the Visalia Unified School District’s Career Technical Education Director at 730-7510.

- Roller blades, skates and skateboards are not allowed on any school bus
- Schools should advise parents that roller blades, skates, and skateboards will be the responsibility of the student.
- Each site will determine a procedure as to how the student will be responsible for roller blades, skates, and skateboards while the student is in school.
- Although parents will be accepting the responsibility for permitting their child to ride roller blades, skates, or skateboards to school, each site should stress the importance of safety as is done for students riding bicycles.
EMERGENCY, DISASTER, AND CIVIL DEFENSE PROCEDURES
(Important - please keep this for future reference)

EMERGENCY INFORMATION

The Visalia Unified School District schools are required to have comprehensive safety plans which include their emergency response system. These plans are reviewed annually by the VUSD School Board. We believe that the reactions of people in emergencies depend largely upon their training. Our school staff is trained and a variety of drills are held regularly to make certain that the students understand emergency procedures.

We want your children to be as safe at school as they are at home in a serious emergency. School buildings have been designed with safety in mind, and inspections are regularly made to remove known possible hazards. There are personnel trained in first aid. Our primary concern in the event of emergency is the safety and welfare of the students.

Your children should be instructed to obey the directions of their teachers and bus drivers. If they are walking or riding bicycles, they should be told to continue toward their destination (to or from school) when an emergency situation develops.

Your cooperation is asked in an emergency:

- Please do not telephone the school. Telephone lines will be needed for emergency communications.
- Please do not drive to school. Streets should be as open as possible for emergency vehicles.
- Do turn your radio to the local station. Information and instructions for picking up students during or after an emergency will be given over the radio.
- Your children should know the safest and quickest route home in the event that buses are unable to proceed as planned, making it necessary for students to walk home from school.
- If early dismissal of school was to occur the school will need current phone numbers in order to contact parents/guardians.
- You should review the above procedures with your children regularly and emphasize that the regular means of getting home from school will be used except in an extreme emergency.

We assure you that our schools will continue to work closely with the Tulare County Office of Emergency Services and will adjust our plans should changes be necessary.

ANNUAL ENVIRONMENTAL PROTECTION AGENCY
NOTICE

This message provides annual notification to District parents and guardians that is required by the Environmental Protection Agency (EPA) through the “Asbestos Hazard Emergency Response Act.” The Act requires that notice be given documenting the original asbestos inspections and asbestos-related activities that have occurred since the last annual notice.

The original inspections were completed during the 1988/89 school year. Visalia Unified School District personnel conducted the inspections and prepared the Management Plans which were subsequently submitted to and approved by the State’s Office of Local Assistance. Copies of the inspection and management plan for your child’s school are maintained at the school and in the Maintenance and Facilities offices located at 801 North Mooney Blvd., Visalia, California.

Update Information
Surveillance of asbestos containing materials is conducted every six months at each school district site. Trained Visalia Unified School District personnel conduct the six-month surveillance, and the results are added to the District’s management plan for each site. The next three year re-inspection completed for all sites is due to be in 2017. Recent asbestos work includes the, removal and handling of asbestos at Green Acres and Linwood and the replacement of flooring materials at Conyer. Work planned for the next fiscal year may include asbestos work due to flooring replacement at various sites.

If you have any questions, please call Joe Haley at Maintenance and Operations office at 730-7589.
Assembly Bill 2260 establishes the Healthy Schools Act of 2000 and promotes the least-toxic pest management programs for school districts. Part of routine sanitation and maintenance involves the control of unwanted pests and weeds. After carefully considering non-poisonous alternatives, Visalia Unified School District has determined that the best action to control this problem is to treat the pest infestation with an EPA and State of California approved materials. The materials will be applied in strict accordance with the law and every safety precaution will be taken.

REPORTING OF WEAPONS AND DANGEROUS OBJECTS

The Board encourages students to promptly report the presence of weapons, injurious objects, or other suspicious activity to school authorities. The identity of a student who reports such activity shall remain confidential to the extent permitted by law. (BP 5131.7 (b), Ed. Code 49335)

Students may use the following reporting strategies:

- b. E-mail school officials
- c. Write to school officials
- d. Call school officials

SCHOOL ATTENDANCE

WHY REGULAR SCHOOL ATTENDANCE IS IMPORTANT

Students must attend school REGULARLY to achieve in the classroom. Parents who make regular school attendance a top priority help their children become dependable and responsible. The importance of being in school EVERY SCHOOL DAY applies to students at all grade levels. Children in the primary grades (K-3) should set a pattern of regular attendance early in their school careers. The habit will carry over through high school and beyond.
BEING ABSENT FROM SCHOOL HURTS THE STUDENT
Visalia Unified School District data shows that students who do not attend school regularly achieve at a lower level than their classmates. Poor school attendance is the most frequently identified symptom of the potential school dropout. The average number of absences for students who were “on track” to graduate with their classmates was 4 absences a semester or 8 days during the entire school year. On average, high school students who are not on track to graduate are absent 9 or more days a semester, or 17 days in a school year. On average, students who are absent 1-2 days a month or more, ARE NOT on track to graduate with their classmates regardless of the school they attend, their grade level, the courses they take, or their ethnicity.

ABSENTEEISM HURTS OTHER STUDENTS
When students who have been absent return to school, they need more individual attention from their teacher. They often deprive their classmates of the teacher’s full attention.

ABSENTEEISM IMPACTS YOUR CHILD’S SCHOOL
State funding to schools is linked to student attendance. The more your child is absent, the less funding a school district receives from the state and the total educational program suffers

EXCESSIVE ABSENTEEISM AND YOUR ABILITY TO GET A WORK PERMIT:
If you have 5 or more absences without a doctor’s note after being placed on Attendance Supervision, you will not be given a work permit, or the permit you have will be revoked until the end of the school year.

Your high school principal may waive these requirements if you are denied a work permit, and it is verified that a personal or family hardship exists regarding employment or because of medically related reasons.

ABSENTEEISM HURTS OUR COMMUNITY
Students who are chronically absent are not prepared to join the work force or continue their education beyond high school—IF they graduate from high school. The Visalia Police Department confirms that daytime criminal activity increases when students are not in school. Make sure your child attends school every school day!

VISALIA UNIFIED SCHOOL DISTRICT ATTENDANCE STANDARDS
The standards listed below will be used to complete the Health and Human Services Attendance Verification Forms.* The following are acceptable standards for all students in grades K-12 who are between the ages of 6 and 18 years of age and subject to mandatory attendance laws in the State of California.

Excused, Warranted or Unexcused Absences – Acceptable standards are met when the student has less than 10 excused, warranted or unexcused full day absences during the previous 6-month period. Only 5 of those total absences may be marked unexcused. If a student is on summer break, only count the previous six months that the student was required to be in attendance. This may also include an accumulation of period absences that total the equivalent of 10 full days of absence. Students may have more than 10 excused or warranted absences if the absence is verified by a qualified medical examiner or school nurse.

Tardy – Acceptable standards for elementary school students are met when the student has less than 10 excused or unexcused tardies in a 6-month period of time. A student may have more than 10 excused tardies if they have been verified by a qualified medical examiner or school nurse.

*Violation of any one or more of the above expectations will result in certification on the Health and Human Services Verification Form that the “stated child has not been meeting our school’s attendance requirements.”

Individual school standards of attendance may be set at a higher level of expectancy. The above standards will be used only to certify verification of attendance as required in reporting to the Health and Human Services Agency.

California Attendance Laws
Effective January 1, 2011, California created a new standard for attendance that now defines students who miss more than ten percent of a school year without a valid excuse as “Chronic Truants”. This new definition is directly linked to Penal Code 270.1 that allows school districts to hold the parents of “Chronic Truants” accountable in the local courts. Penal Code 270.1 states that parents of children who are classified as “Chronic Truants” and are ages six (6) and older, in grades one (1) through eight (8) may be guilty of a misdemeanor punishable by a fine not exceeding two thousand dollars ($2000), or by imprisonment in a county jail not exceeding one year, or by both that fine and imprisonment.
EDUCATION ASSISTANCE FOR HOMELESS STUDENTS
MCKINNEY-VENTO ACT /RIGHTS AND OPPORTUNITIES
Information for Parents & School-Age Youth

If your family or you live in any of the following situations:

- In a shelter, motel, vehicle, or campground
- On the street
- In an abandoned building, trailer, or other inadequate accommodations, or
- Temporarily living with friends or relatives because you cannot find or afford housing;

Then preschool-aged, school-aged children and unaccompanied youth have certain rights or protection under the McKinney-Vento Homeless Education Assistance Act.

Homeless children and youth have the right to:

- Go to school, no matter where you live or how long you have lived there. You must be given access to the same public education including preschool education, provided to other children and youth.
- Continue in the school you attended before becoming homeless or the school you last attended if that is your choice and is feasible. If a school sends your child to a school other than the one you request, the school must provide you with a written explanation and offer you the right to appeal the decision.
- Receive transportation to the school you attended before your family became homeless or the school you last attended if you or a guardian request such transportation.
- Attend a school and participate in school programs with children who are not homeless. Children cannot be separated from the regular school program because they are homeless.
- Enroll in school without giving a permanent address. School cannot require proof of residency that might prevent or delay school enrollment.
- Enroll and attend classes while the school arranges for the transfer of school and immunization records or any other documents required for enrollment.
- Enroll and attend classes in the school of your choice even while the school and you seek to resolve a dispute over enrollment.
- Receive the same special programs and services, if needed, as provided to all other children served in these programs.
- Receive transportation to school and to school programs that are normally afforded other students or in order to maintain enrollment in school of origin.

When you move, you should do the following:

- Contact the school district’s local liaison for homeless education or assistant (see phone number below) for help in enrolling your child in a new school or arranging for your child to continue in his or her former school.
- Contact the school and provide any information you think will assist the teachers in helping your child adjust to new circumstances.

EARNING A HIGH SCHOOL DIPLOMA IS YOUR TOP PRIORITY

A student must be ON TRACK to graduate with your classmates before you can obtain a WORK PERMIT. This means that a STUDENT MUST EARN THE FOLLOWING NUMBER OF UNITS BY THE END OF EACH SCHOOL YEAR:

In addition to the on-track requirement mentioned above, a student applying for a work permit shall achieve a grade point average of 2.0 with no more than one “F” in the grading period preceding the date in which the work permit is to be issued.

Should an individual fall below the above requirement after receiving a work permit, a 6 week probationary period will be provided to allow the student to bring up his/her grades. If unsuccessful in bringing the grades up to the standard required, the student’s work permit will be revoked during the next 6 weeks and the student will not be able to obtain another work permit until his/her grades meet the academic standards at the conclusion of a regular grade reporting period.

Students who are transferring into Visalia Unified School District Schools from other school districts and who are NOT ON TRACK to graduate may gain a work permit ONLY IF they earned no “F” (failing) grades at the end of the previous semester and are enrolled in more than 30 units during the current semester.

Your high school principal may waive these requirements if you are denied a work permit, and it is verified that a personal or family hardship exists regarding employment or because of medically related reasons.

If you want more information on whether you are eligible for a work permit, contact your high school counselor.

Graduation Requirements under AB 1330

On April 10, 2012, the Visalia Unified School District Board of Trustees adopted the provisions contained within AB 1330. These provisions allow a student to use a Career Technical Education (CTE) course to satisfy the one-course Foreign Language or Visual and Performing Arts district requirement for graduation. In Visalia Unified, CTE courses are associated generally with the Agriculture, Business, Consumer and Family Studies, and Industrial Education departments, and also with TCOVER ROP courses. Current lists of these courses may be found in the program planning guides produced by each high school.

It is important to note that this legislation does not change California State University or University of California entrance requirements which do not allow for the substitution of a CTE course for a foreign language or visual and performing arts course.

At this time, no CTE courses meet college entrance requirements. Courses are being developed, however, that may meet these requirements in the future. Please contact your high school counselor for the latest and most accurate information on this topic.

High School Graduation Law

There is pending legislation that may affect the administration of the CAHSEE for the 2015-2016 school year and beyond.

California State law (Education Code 51412), prior to and during the 2014-2015 school years, requires that all students enrolled in a regular education program must pass the California High School exit Exam (CAHSEE) to receive a diploma. Under current law, students in Special Education can now earn an alternative certificate of completion and still participate in a school’s graduation ceremony. Under current law, students with special education services may be granted a waiver allowing the student to receive a high school diploma without passing the CAHSEE English Language Arts and Math exams. Students in VUSD continue to prepare to meet the academic standards assessed through the CAHSEE and are provided multiple opportunities to be successful in passing the exit exam.
Pending any legislative changes, all other students, however, must pass the CAHSEE to receive a diploma. Including, and prior to the 2014-2015 academic years, state law does not allow local School Boards or districts to give out an alternative graduation certificate of any kind or allow students who have not passed the CAHSEE to participate in the school’s graduation ceremony. Our School Board revised their Board Policy to comply with this state law. We also continue to monitor any further actions by the State Board of Education that might affect this law.

Since 2001, Visalia Unified School District has been making specific changes in the course material taught to students in elementary, middle, and high school to make sure all students are being taught the subjects and skills required to succeed on the CAHSEE. The School Board has adopted learning standards, and district measurements are now in place to monitor every student’s progress in preparing them for this state-required exam.

It is important that you, as parents/guardians, work closely with your student to help him or her successfully pass the CAHSEE so that they can earn a high school diploma.

For more information, please contact either the school principal, assistant principal, learning director, or your student’s counselor.

**CALIFORNIA HIGH SCHOOL EXIT EXAM (CAHSEE)**

Starting in the 2005-06 school year, and until subsequent legislative changes, students had to satisfy the CAHSEE requirement in addition to meeting district and state requirements for graduation. California State Law (Education Code 51412) requires that all students enrolled in a regular education program must pass the California High School Exit Exam (CAHSEE) in order to receive a California high school diploma. Students must receive a score of 350 in the English-language Arts portion of the test as well as 350 in the mathematics portion of the test in order to pass the CAHSEE.

Beginning with the Class of 2006, and until subsequent legislative changes, all tenth-grade students are required to take the CAHSEE, once in grade ten in February, with a make-up in March. If necessary, students will be given up to five additional opportunities to retake portions of the examination not yet passed. There are two parts to the CAHSEE: English-language arts and mathematics. These are conducted over two days and consist of the following components:

The English-language arts part of the CAHSEE addresses state academic content standards through grade ten. The examination consists of multiple-choice questions and a writing task. The reading and decoding portion covers vocabulary, informational reading, and literary reading. The writing portion covers writing strategies, applications, and conventions. The examination has one written response either to literature or an informational passage or to a writing prompt.

The mathematics part of the CAHSEE addresses state academic content standards in grades six, seven, and Algebra I. It includes statistics, data analysis and probability, number sense, measurement and geometry, mathematical reasoning, and algebra. Students also must demonstrate strong computational skills and a foundation in arithmetic, including working with decimals, fractions, and percentages. The math examination consists of all multiple-choice questions.

It takes a community effort to make this test a positive experience for our students. Teachers must continue to demonstrate their commitment to the curricular success of our students. Parents should monitor their students vigilantly to understand the level of achievement being demonstrated in each subject matter. Open lines of parents-school communication will be paramount to the success of our students. The many avenues of remediation being offered by our district are available to all families. Pending legislative change for the upcoming 2015-2016 school year, all grade 10 students will have their first opportunity to take the CAHSEE on February 2nd and 3rd. Opportunities for VUSD students in the 2015-16 school year are tentatively calendared as follows:

STATE TESTING AND ASSESSMENTS

Each year Visalia Unified School District students in grade 3 through 8, grade 10, and grade 11 participate in state testing for the subject areas of English Language Arts, Mathematics, and/or Science. Parents are hereby notified that exempting their student from participating in said test(s) will be honored following a submission of the written request that must be presented annually in accordance with Education Code Section 60615. This written request can be submitted directly to the student’s site administration office.

SCHOOL TRANSFERS

ENROLLMENT OPTIONS AND OPTIONS FOR MEETING RESIDENCY REQUIREMENTS

Each student shall be enrolled in the particular school designated by attendance area boundaries for the school; however, the Board of Education desires to provide options that meet diverse needs and interests of district students. Students who reside within district boundaries may apply for enrollment in any district school and if space permits, may be enrolled.

The district shall admit only those students who provide proof of residency in the Visalia Unified School District. Such proof (i.e., utility service payment receipts, rent payment receipts, property tax payment receipt, or a residency visit by a district official) shall be required prior to enrollment.

Families who allow “another family” to reside in their residence must go to their home school and file a “Residency Affidavit” in order for the “other family” to attend the home school. These residency affidavits must be filed at the school on an annual basis.

Residency Requirement Options:
- Student lives with parent/guardian.
- Student is in a licensed foster home, family home, or children’s institute within the district.
- Student is placed by parent/guardian into a properly licensed home.
- Student lives in the home of a relative who is a “care giving adult” located within the district.
- Student is confined to a district area hospital or residential care facility for treatment of a temporary disability.
- Student has a current inter district attendance agreement.
- Student’s parent/guardian works within the district boundaries and a current inter district agreement is in effect.
- Student is an emancipated minor living in the district.

PROGRAM OPTIONS THAT MAY NOT BE OFFERED AT YOUR CHILD’S SCHOOL

There are program options offered within local attendance areas or available through intra district or inter district transfers. These options are listed below. To obtain more information regarding eligibility standards and programmatic offerings, contact your child’s teacher, counselor, or site administrator.

If further explanation of attendance options under California law is desired, please contact the Student Services Division at 730-7573 or the Curriculum/Educational Division at 730-7555.

CHOOSING YOUR CHILD’S SCHOOL
A Summary of School Attendance Alternatives in California

California law (Education Code Section 48980(j) requires all school boards to inform each students’ parents/guardians at the beginning of the school year of the various ways in which they may choose schools for their children to attend other than the ones assigned by school districts. Students that attend schools other than those assigned by the districts are referred to as “transfer students” throughout this notification. There is one process for choosing a school within the district in which the parents/guardians live (Intra district transfer), and two separate processes for selecting schools in other districts (Inter district transfer). The general requirements and limitations of each process are described below.

CHOOSING A SCHOOL WITHIN THE DISTRICT
IN WHICH PARENTS/GUARDIANS LIVE

The law (Education Code Section 35160.5(b) requires the school board of each district to establish a policy that allows parents/guardians to apply to the school of their choice, regardless of where the parents/guardians live in the district. The law limits “school choice” within a school district as follows:

- Students who live in the attendance area of a school must be given priority to attend that school over students who do not live in the school’s attendance area. Each district must decide the number of openings at each school which can be filled by transfer students and transfers are based on space availability.

- In cases in which there are more requests to attend a school than there are opening, the selection process must be “random and unbiased” which generally means students must be selected through a lottery process rather than on a first-come, first serve basis. A district cannot use a student’s academic or athletic performance as a reason to accept or reject a transfer.

- A district is not required to provide transportation assistance to a student that transfers to another school in the district under these provisions.

- If a transfer is denied, a parent/guardian does not have an automatic right to appeal the decision. A district may, however, voluntarily decide to put in place a process for parents/guardians to appeal a decision.

INTRA DISTRICT TRANSFER PROCEDURES

State law requires that California school districts offer intra district transfer opportunities to parents within certain guidelines. The information below reflects the transfer procedures, within the law, that allows parents to request enrollment of children in District schools which have available space, so long as certain requirements are met.

Q: What is an intra district transfer?
A: State law provides the parents (guardians) of each school-age child, who is a resident of the school district, the opportunity to transfer to a school which has “space available.” Visalia Unified offers “space available” transfers as per state law.

Q: Which schools are allowed intra district transfer?
A: Schools are determined according to individual school capacities. Space availability depends upon:
- District growth patterns
- The physical capacity of the school (based on the number of classrooms and seats at standard capacity)
- Staffing allocations at the school (the law does not require that school districts add teachers to accommodate intra district transfers)

Q: Who can participate in the intra district transfer program?
A: Any student who lives within District boundaries.
Q: When did intra district transfers start in Visalia Unified School District?
A: The District first offered the intra district transfer during school year 1994/95 and has continued every year.

Q: How do parents apply to take part in the intra district transfer process?
A: Interested parents can complete an application form and return it to their home school according to the established timeline. (Please see the intra district transfer calendar for the 2015-16 school year).

Q: How are students selected for intra district transfers?
A: A lottery drawing is held from the applicant pool, a random, unbiased process that prohibits an evaluation of whether a student should be enrolled based upon academic, athletic, or any other performance.

Q: What about siblings?
A: Placement of siblings will be given priority. However, their placement will depend upon space availability.

Q: When do parents register their children for intra district transfers?
A: For the 2016-2017 school year, parents are asked to submit applications by February 12, 2016 for grades 1-12 and for Kindergarten the deadline is April 29, 2016. If selected, parents must confirm their child’s enrollment within two weeks of notification and complete paperwork as needed at the new school.

Q: Do students selected for intra district transfers need to apply to stay at their school every year?
A: No. Once accepted, students are considered residents of the new school regardless of where they reside within the school district. They need only apply for intra district transfer at the next level (middle school and high school) or for a new school. However, students who are not selected for a transfer must reapply to be considered the following year.

Q: Will transportation be provided for intra district transfer students?
A: No. A parent who transfers a child through the intra district transfer process is responsible for transportation.

Q: Can students return to their home school after transferring to an Open Enrollment School?
A: Only if there is space available at K-6. At the 7-12 grade level, if there is space available and during the first week of the new school year.

Q: What about special education students?
A: It is recommended that when special education students are attending special classes and/or receiving specialized services that their families consult with the student’s IEP team or Program Specialist before applying for intra district transfer.

Q: Can parents appeal a denied intra district transfer request?
A: Any appeals of denied intra district transfers need to be submitted to the Director of Student Services. An appellate panel of administrators may review the case and their decision will be final.

Applications for Transfer:
Transfer applications are available at all school sites.

Reasons for Transfer: Transfers granted on space available basis only
Please complete and turn in at home school.

Waiting List:
If space is not available, child will be placed on a waiting list for K-6. Waiting list will be honored before any new requests are honored. Waiting list for K-6 is maintained until March of each school year. The wait list for 7-12 will be maintained until the end of September of each school year. Transfers for Middle and High Schools will be reviewed as received throughout the year on a case by case basis.

Sibling Preference:
In order to keep families together, there will be a preference given to requests where an older sibling will continue to be enrolled at the school being requested.

Moving to middle/high school:
Important notice for parents: If your child is moving on to middle school they will be expected to attend their school of residence unless they apply for and receive an intra district transfer. Approved transfers to middle school will be valid for grades 7-12. When the student promotes to high school, the student has the option of continuing on with the normal transfer to that middle school’s receiving high school or attend the high school in the student’s home address’ attendance area. A transfer may also be submitted for the lottery to another high school.

SCHOOL PLACEMENT OPTIONS
If your child received an intra-district transfer for the 2015-2016 school year, allowing him/her to attend a school other than the school of residence, you need to be aware that there are options available to you for the 2016-2017 school year.

1. Your child can continue to exercise his/her transfer and remain at the current school for another year.
   If you want to exercise your option to keep your child in the current school, please let the staff at your school know that your child will be remaining with them.

2. Your child can return during the first week of the new school year to the home school (school of residence) based on space availability.
   Space must be available in order for a student to return to the school of residence.

3. Request another intra district transfer to yet another school.
   If you want another intra district transfer and want your child to attend yet another school, you must fill out and submit a transfer form by February 12, 2016 to qualify for the lottery selection process. You may pick up a transfer request form at any school starting December 2, 2015.

4. Your child is completing elementary or middle school this year and will not need to maintain their current transfer.
   If your child is moving on to a middle school or high school next year 2016-2017, he/she will be expected to attend the school of residence, unless you apply for and receive another intra district transfer.

Please assist the schools involved by letting them know your plans for next year. This will help with teacher staffing and insure that optimum space is available for all students, including your child, and provide the best learning environment for all.

If you have any questions about this process direct those questions to Student Services at 730-7573.

PROGRAM IMPROVEMENT TRANSFERS:
Under the Federal Law, No Child Left Behind, parents at a school site designated as a Program Improvement School have a right to request a transfer to a non-program improvement school site with transportation offered by the school district. Schools that have not met their AYP goal (Standardized testing goals) for two consecutive years are designated as Program Improvement status. Transfers will be granted on space availability to a neighboring school that is not designated Program Improvement. If the home school is no longer designated in Program Improvement, the obligation of transportation is transferred to parents. Students designated as lower achieving or low social-economics will have priority for transfer as space is limited. All Program Improvement transfers will be processed from October through December. If you have questions about the status of your school and need information to make the best educational decision for your child, please contact your school site principal.
INTER DISTRICT TRANSFER INFORMATION
(Transfers either from or into V.U.S.D.)

These transfers are processed on a continuing basis. They are only approved for one year at a time and will be honored if space permits. If you are interested in applying for a transfer out of the district for next year, applications can be picked up in the Student Services Division at the District Office after February 1, 2016. On this date, applications to enter VUSD will be accepted. Applicants must apply through their home district. The enclosed information will further assist you in understanding your options and the procedures related to student transfers. If you should have any questions, please contact the Student Services Department at 730-7573.

INTER DISTRICT TRANSFER PROCEDURES

INCOMING STUDENTS:
Parents/guardians wishing to enter into an inter district agreement should contact the Student Services Department at 730-7573. When a request for an incoming inter district agreement is made, it will be determined by the district as to which school the student may be assigned on a space available basis. The parent/guardian will be asked to apply for an inter district agreement from the district in which they reside.

Parents applying for inter district agreements should be cautioned that when receiving permission to enroll their child under an inter district agreement, there is no guarantee of attendance at the same school for succeeding years.

OUTGOING STUDENTS:
Parents/guardians of a child residing in the Visalia Unified School District and applying for an inter district agreement to attend school in another district should call the Student Services Department at 730-7573. Their request will be processed. Such agreements must be renewed annually.

INTER DISTRICT OPTIONS
Parents/guardians have two different options for application to a school outside the district in which they live. The two options are described below:

1. INTER DISTRICT TRANSFERS

The law (Education Code Section 46600) allows two or more districts to enter into an agreement for the transfer of one or more students for a period of up to five years. New agreements may be entered into for additional periods of up to five years each. The agreement must specify the terms and conditions under which transfers are permitted. There are no statutory limitations on the kind of terms and conditions districts are allowed to place on transfers. The law on Inter district transfers also provides for the following:

- Both of the school districts a parent/guardian is requesting a transfer to and the one a parent/guardian is transferring from give consideration to the childcare needs of the pupil. If the transfer is approved based on childcare needs, the student may be allowed to stay in the new district or the high school district through the 12th grade, subject to certain conditions.
- If either district denies a transfer request a parent/guardian may appeal that decision to the county board of education. There are specified time lines in the law for filing an appeal and for the county board of education to make a decision.
- The Superintendent or designee may deny a transfer into the district for reasons that are not arbitrary or discriminatory (Education Code 46600 (a)). A transfer may be denied to Visalia Unified, per AR 5117.1 (b), for the following reasons:
  1. Overcrowding, lack of space.
  2. The cost of educating the student will exceed the increase in state revenue.
  3. The request is based solely on a desire to participate in athletics or extra-curricular activities.
  4. The student has a history of failure to meet reasonable standards of behavior, attendance or diligence to studies.

* No district is required to provide transportation to a student who transfers into the district.
2. **PARENTAL EMPLOYMENT IN LIEU OF RESIDENCY TRANSFERS (“ALLEN BILL TRANSFERS”)**

The law (Education Code Section 48204 (f) provides that if one or both parents/guardians of an elementary school student are employed in the boundaries of a school district other than the one in which they live, the student may be considered a resident of the school district in which his/her parents or guardians work. This code section does not require that a school district automatically accept a student requesting a transfer on this basis, but a student may not be rejected on the basis of race/ethnicity, sex, parental income, academic achievement, or any other “arbitrary” consideration. Other provisions of Education Code Section 48204(f):

- Either the district in which the parent/guardian lives or the district in which the parent/guardian works may prohibit the transfer if it determines there would be a negative impact on its court ordered or voluntary desegregation plan.
- The district in which the parent/guardian works may reject a transfer if it determines that the cost of educating the student would be more than the amount of government funds the district would receive for educating the student. The limitation might particularly apply to any special needs student that would require extra services from the district for which the district believes the state aid it would receive would not fully pay.
- There are limits (based on total enrollment) on the net number of students that may transfer out of the district under this law, unless the district approves a greater number of transfers.
- There is no required appeal process for a transfer that is denied. However, the district that declines to admit a student must provide in writing to the parent/guardian the specific reason for denying the transfer.

The above summary of the attendance alternatives available to parent/guardian and their children is intended to provide them with an overview of the laws applying to each alternative. Any parents/guardians who are interested in finding out more about these options should contact their own school district, or the district they may be thinking about transferring into for more information on district policies, procedures, and timeline for applying for transfers.

**TRANSPORTATION**

**BUS TRANSPORTATION**

Administration Regulation (3541.a)

Transportation 730-7856 • Foggy Day Information: 730-7594

**A. Walking Distance to School**

The district shall furnish transportation to those students involved at the various grade levels who live beyond the distances from the school as listed below. For grades kindergarten through six, these distances shall be measured by using the most direct route from the student’s residence to school. For grades seven through 12, these distances shall be measured by using a radius from the school.

1. All pupils in kindergarten and grades 1 through 3 . . . . . . . . . . . . . . . . . one mile
2. All pupils in grades 4 through 6 . . . . . . . . . . . . . . . . . . . . . . . two and one-half miles
3. All pupils in grades 7 through 8 . . . . . . . . . . . . . . . . . . . . . . . two and one-half miles, radius
4. All pupils in grades 9 through 12 . . . . . . . . . . . . . . . . . . . . . . three miles, radius

Consideration for varying these distances may be given for those students with special medical reasons. This requires a statement from the family doctor with the need explained and the length of time this special transportation will be needed. Medical permits shall be renewed each school year. All other students living within the walking distance may also petition for transportation. Special consideration request may be submitted and shall be renewed each school year by the parent or guardian.

**B. Walking Distances to Meet the Bus on Routes**

Bus routes shall be planned to give students the best possible service. Every effort shall be made to locate the bus stops at points where pupils can be loaded and discharged safely and conveniently. In areas where pupils live at considerable distances from each other, the school bus may need to stop at each point along the route that is nearest to the pupil’s home rather than at central gathering points. In areas where students live close together, they may be required to walk to certain designated bus stops located at intervals along the route. The following is considered reasonable walking distance to meet buses.

1. Students in kindergarten and grades 1 through 3 . . . . . . . . . . . . . . . . . 1/2 mile
2. Students in grades 4 through 12 . . . . . . . . . . . . . . . . . . . . . . . . . . . . 3/4 mile

The above distances to be measured from the point of entry to privately owned property.
Consideration for varying these distances may be given for those students with special medical reasons. This requires a statement from the family doctor with the need explained and the length of time this special transportation will be needed. Medical permits shall be renewed each school year by the parent or guardian.

RULES OF CONDUCT ABOARD THE SCHOOL BUS
(Calif. Adm. Code, Title 5, Section 14103)

It is the purpose of Visalia Unified School District Transportation Department to make school bus transportation a safe, pleasant experience for the students of our District. Conduct of students on the school buses is a serious matter. One misbehaving student can jeopardize the safety and welfare of many others by distracting the driver’s attention away from traffic conditions.

Pupils transported in a school bus shall be under the authority of and responsible directly to the driver of the bus, and the driver shall be held responsible for the orderly conduct of the pupils while they are on the bus or being escorted across a street, highway, or road. Continued disorderly conduct or persistent refusal to submit to authority of the bus driver shall be sufficient reason for a pupil to be denied transportation. A bus driver shall not require the pupil to leave the bus in route between home and school or other destinations.

Riding on a School Bus is a “PRIVILEGE” not a Right. All students who ride a school bus are subject to bus riding regulations. Safe transportation in a school bus requires cooperation and consideration of all people. Listed below are some of the unacceptable behaviors that could jeopardize student bus riding privileges:

- Refusing to obey the driver
- Throwing objects in, out, or at the bus
- Eating, drinking, chewing gum on bus
- Bothering others, spitting, profanity
- Smoking on bus
- Bringing animals on bus
- Fighting
- Failure to remain seated
- Disobeying the bus monitor
- Lighting matches/lighters
- Willfully destroying bus property
- Hanging out of window
- Bringing skateboard on bus

In determining a foggy day transportation schedule, the following procedure shall be used. Foggy day transportation scheduling will be implemented when visibility is less than 300 feet in two or more of Visalia Unified School District’s elementary school attendance areas.

Media will announce foggy day transportation scheduling for the Visalia Unified School District by indicating one of the plans listed below, using only the letter designation, such as Plan “A”. Parents and students should be familiar with these plans. Parents are urged to use caution in determining how conditions affect their student’s method of getting to and from school. Parents may opt to send Kindergarten - 12th grade students after the fog has lifted, causing them to be late to school. These students will not be penalized for being tardy or absent if an excuse is provided in writing or by telephone.

While on the activity or athletic event, the driver is to continually monitor the weather conditions. When visibility becomes reduced, the driver shall communicate with their supervisor/coach/teacher on the status or weather conditions. If the driver determines (after conferring with their supervisor) an earlier return is required, the coach or teacher will be notified of the revised time.

If at any time while in route the visibility is reduced to 200 feet or less, the driver shall find the nearest available lighted area so as to pull the bus or vehicle off the roadway and away from traffic. Drivers SHALL NOT stop on the shoulder of any highway under these conditions except for an emergency.

BUS EMERGENCY PROCEDURES

Upon registration, the appropriate school site will provide to the parents or guardians of all pupils in pre-kindergarten through grade 6 who have not previously been transported in a school bus or school pupil activity bus, written information on school bus safety. In accordance with Education Code section 39831.5, all students pre k through the 8th grade that ride the bus will receive safety instructions at least once each year during a scheduled bus evacuation drill.

Instruction on the use of passenger restraint systems, when a passenger restraint system is installed, shall include, but not be limited to all of the following:

A. Proper fastening and release of the passenger restraint system;
B. Acceptable placement of passenger restraint systems on pupils;
C. Times at which the passenger restraint systems should be fastened and released; and
D. Acceptable placement of the passenger restraint systems when not in use.

Prior to departure on a school activity trip, all students riding on a school bus or school pupil activity bus shall receive safety instruction which includes, but is not limited to, location of emergency exits, and location and use of emergency equipment. Instruction also may include responsibilities of passengers seated next to an emergency exit.

This Safety Plan shall include: Assembly Bill 1297 (which includes added Section 39831.3 of the Education Code) and amended Vehicle Code 22112.

This Safety Plan is effective January 1, 1998. It may be subject to revisions based on legislative changes and/or Board Policy amendments and/or additions. Any revisions will be sent by District mail or E-mail to each school site to take the place of the current plan in use.

SAFETY RULES AND PROCEDURES FOR SCHOOL BUS STOPS

Visalia Unified School District Board Regulations, in conjunction with the California Education and Vehicle Codes, requires the following:

1. The driver shall stop to load or unload pupils only at a school bus stop designated for pupils by the school district superintendent or authorized by the superintendent for school activity trips.
2. Students shall be assigned a designated bus stop by the Transportation Department. Students are to board and exit the bus at their regular designated bus stop only. Drivers shall make every effort to ensure that students comply and will report non-compliance to the Department. Students requesting to exit the school bus at a stop other than their regular designated stop must obtain, and the driver shall be given, written permission from their parent, guardian or school official.
3. Upon stopping the school bus on a highway or private road for the purpose of loading or unloading pupils, at a location where traffic is not controlled by a traffic officer, or official traffic control signal, the driver shall determine if there are students loading or unloading who must cross the highway or private road.
4. The school bus driver shall escort all pupils in pre-kindergarten, kindergarten, and any of grades 1 to 12, inclusive, needing to cross the highway or private road upon which the school bus is stopped. Escorting stops shall not be made on a divided highway. The driver shall use an approved hand-held "STOP" sign while escorting all pupils. All pupils are required to walk in front of the bus as they cross the road.
ESCORTED CROSSING PROCEDURES
The Transportation Department encourages parents and guardians to discuss with their children the dangers of crossing the street during an escort. Although your driver is a professional, trained in loading and unloading safety procedures, it is important for your child to use extreme caution when crossing the road. Please instruct your child to use the following safety procedures every time they must cross the road at the bus stop:

1. Students shall remain seated until the bus comes to a complete stop. The driver will indicate when they should come forward to prepare to exit the bus.
2. The student’s will follow the driver as he/she exits the bus. Once outside, the students shall stand beside the bus, off of the roadway. Students need to pay close attention to the driver and wait for the driver to tell them that it is safe to cross. Students should never assume traffic will stop nor should they cross without the protection of the school bus driver.
3. When the driver tells the students that it is safe to cross, they are to walk in FRONT of the bus, between the bus and the bus driver. Students should walk quickly, straight across to the other side of the street. Once the students have safely crossed the roadway, the driver will return to the bus. It is very important that the students do not re-enter the roadway as traffic will be ready to proceed and it would be extremely UNSAFE.

RULES OF THE ROAD FOR PARENTS
A reminder for all parents and guardians - the speed limit, when approaching and passing by a school building or school grounds, while children are going to or leaving the school either during school hours or during the noon recess is 25 miles per hour.

The Amber Warning Light System and the Flashing Red Light Signal System are used by school buses to protect children while entering or exiting the school bus. When the Amber Warning Lights are flashing it means caution, get ready to stop. When the Red Warning Lights are flashing it means stop, students will be loading or unloading. It is against the law for the driver of any motor vehicle to pass a school bus with the Red Warning Lights flashing on an undivided highway. The Transportation Department urges everyone to use caution when driving in school zones and bus pick-up and drop-off locations.

THE SCHOOL BUS DANGER ZONE
There is an area 12 feet around the school bus called the "Danger Zone." Parents and guardians should discuss with their students the hazards of being in this area. Please see the attached diagram. Students should stay clear of the danger zone and be at least 12 feet from the bus both before and after boarding the school bus. If a student drops something in the danger zone, they should notify the driver of the bus who will retrieve the item. Under no circumstances should a student ever reach or crawl under the bus.
A high-quality education offers Americans the best path to a rewarding career quality living for a lifetime. As citizens of the 21st Century, we must include information and technology literacy among the elements of a good education.

It is important that our students receive guidance as they engage in the online world. Although children can use the web to access the Library of Congress or download images of Mars, not all of the materials on the Internet is appropriate for children. As a parent, you should monitor your child’s Internet usage; you can guide and teach your child to ensure their Internet activity is safe and meaningful.

ESTABLISH RULES FOR INTERNET USE AT HOME
Like most parents, you probably have rules for how your children should deal with strangers; which TV shows, movies, and videos they watch; and even where and how far from home they’re allowed to travel. It’s important to make similar rules for your children’s Internet use and to be aware of their online activity.

Surfing the Net or participating in social network sites should not replace homework, face to face social activities, or other important interests. You might even set a timer if your child tends to lose track of time while on the computer.

E-MAIL AND CHAT-ROOMS
Just as we tell our children to be wary of strangers they meet, we need to tell them to be wary of strangers on the Internet. Teach your children these few rules about online activity:

• Never give out personal information (e.g.; name, age, address, etc.) or use a credit card online without your permission.
• Never share their password, even with friends.
• Never arrange a face-to-face meeting with someone they meet online unless you approve and accompany them.
• Never respond to a message that makes them feel confused or uncomfortable. If they receive such a message, they should tell you right away.
• Never use bad language or send mean hurtful messages on line.
• Never send negative or threatening messages on line.

Teach your children that people they meet online are not always who they say they are and that online information is not necessarily private, and they can get into a lot of trouble if they send “threats” online even if they send them in jest.

INAPPROPRIATE CONTENT ON THE INTERNET
There are a few rules that govern Internet content. Innocently, your children can come across material on the Internet that is obscene, pornographic, violent, hate filled, racist, or offensive in other ways. While offensive material is not illegal, there are steps you can take to keep it away from your children and out of your home.

• Make sure your children understand what you consider appropriate for them. Set clear, reasonable rules and consequences for breaking them.
• Make online exploration a family activity. Put the computer in the living room or family room. This arrangement involves everyone and helps you monitor what your children are doing.
• Pay attention to games your older child might download or copy. Some are violent or contain sexual content.
• Check with your Internet service provider about services that filter out offensive materials and sites. Such options can be turned on and are usually free to the subscriber.

ENCOURAGE INFORMATION LITERACY
Not all online information is reliable. Some individuals and organizations are very careful about the accuracy of the information they post, but others are not. Teach your children to view the information critically and to use common sense. Remind them not to plagiarize online material or copy software without the publisher’s permission.
INTERNET EXPERIENCES AT SCHOOL

Research has shown that technology, like the Internet, can improve student performance. When possible, students will be encouraged to use technology tools to accomplish their schoolwork. Before a student is allowed to use the Internet, the school must receive an Internet Use Permission Form signed by a parent/guardian. The permission is good for the student’s entire school experience while attending VUSD. A parent who wishes to withdraw their permission must contact their child’s school. To assure that your child has a successful, safe Internet experience, teachers follow the 4-S rule for Internet-based student activities.

- **SIGNATURE** - only students with Internet Use Permission slips on file will be allowed to use Internet tools.
- **STRUCTURE** - Internet use will be within the context of a curriculum activity and not allowed for recreational use.
- **SUPERVISION** - Computer activity will be supervised by school personnel in the same way that children are monitored on the yard.
- **SOFTWARE FILTER** - The district uses a filtering system that blocks most inappropriate sites. This filter is updated every week, but due to the dynamic nature of the Internet, there may be a small percentage of inappropriate sites that may temporarily pass through the filter.

**District Title I – Parental Involvement Policy**

**PART I. General Expectations**

The Visalia Unified School District agrees to implement the following statutory requirements:

The school district will put into operation programs, activities and procedures for the involvement of parents in all of its schools with Title I, Part A programs, consistent with section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities, and procedures will be planned and operated with meaningful consultation with parents of participating children.

Consistent with section 1118, the school district will work with its schools to ensure that the required school-level Parental Involvement Plan meets the requirements of section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with section 1118(d) of the ESEA.

The school district will incorporate this district wide Parental Involvement Plan into its LEA plan developed under section 1112 of the ESEA.

In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the school district and its schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent practicable, in a language parents understand.

If the LEA plan for Title I, Part A, developed under section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the State Department of Education.

The school district will involve the parents of children served in Title I, Part A schools in decisions about how the 1 percent of Title I, Part A funds reserved for parental involvement is spent and will ensure that not less than 95 percent of the one percent reserved goes directly to the schools.

The school district will be governed by the following statutory definition of parental involvement, and expects that its Title I schools will carry out programs, activities and procedures in accordance with this definition:

Parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring…

(A) that parents play an integral role in assisting their child’s learning;
(B) that parents are encouraged to be actively involved in their child’s education at school;

(C) that parents are full partners in their child’s education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child;

(D) the carrying out of other activities, such as those described in section 1118 of the ESEA.

PART II. Description of how the district will implement required District Wide Parental Involvement Plan components

1. The Visalia Unified School District will take the following actions to involve parents in the joint development of its district wide Parental Involvement Plan under section 1112 of the ESEA:

5. The Visalia Unified School District will take the following actions to conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of this Parental Involvement Plan in improving the quality of its Title I, Part A schools. The evaluation will include identifying barriers to greater participation by parents in parental involvement activities (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background). The school district will use the findings of the evaluation
about the Parental Involvement Plan and activities to design strategies for more effective parental involvement, and to revise, if necessary (and with the involvement of parents) its parental involvement plans.

- Parental involvement activities will be annually reviewed and evaluated by members of the school site council and other site based parent advisories and organizations. This review and evaluation will be facilitated by each school principal. Information will be forwarded to the District Site Council.
- The district will facilitate an evaluation process as an annual activity of the District Site Council. The District Site Council is coordinated at the district level and is comprised of representatives from each school’s site council. Additionally, other district level advisories will review the effectiveness of the district’s parental involvement activities and provide input in the revision of parental involvement activities and policies.
- The above evaluation will culminate in the annual adoption of each school’s Single Plan for Student Achievement and include parental involvement plans and activities. It will also be reflected in revisions to the LEA Plan.

6. The Visalia Unified School District will build the schools and parents capacity for strong parental involvement, in order to ensure effective involvement of parents and to support a partnership among the school involved, parents, and the community to improve student academic achievement, through the following activities specifically described below:

- Support materials will be provided parents regarding grade level standards
- Annual training will be provided by specific school sites and/or VUSD to assist parents in supporting their children’s educational needs

C. The school district will, with the assistance of its schools and parents, educate its teachers, pupil services personnel, principals and other staff, in how to reach out to, communicate with, and work with parents as equal partners, in the value and utility of contributions of parents, and in how to implement and coordinate parent programs and build ties between parents and schools, by:

- Providing training to paraprofessionals who work with parents
- Providing training for principals in how to work with parents
- Providing parent friendly materials related to grade level expectations, etc.

E. The school district will ensure that information related to the school and parent programs, meetings, and other activities, is sent to the parents of participating children in an understandable and uniform format, including alternative formats upon request, and, to the extent practicable, in a language the parents can understand:
For students, employees, parents or guardians of its students, school and district advisory committees, appropriate private school officials or representatives, and other interested parties

In its continuing efforts to provide safe and supportive climates in all its schools, Visalia Unified School District has adopted a policy expanding on its current policy prohibiting acts of discrimination, harassment, and intimidation by including bullying. Bullying is not to be confused with teasing. Teasing, although hurtful, is usually a short-term behavior that is stopped after the student is reprimanded or has suffered the consequences defined in the policies of the school district. In general, bullying is defined as an aggressive behavior that involves unwanted, negative actions which typically involves a pattern of behavior repeated over time, and involves an imbalance of power between the bully and the victim where the victim has a sense of being powerless against the bully. Bullying can take many forms. Bullying can occur face to face, on paper either with written notes or drawing pictures, or by using electronic devices to do cyber-bullying. In whatever form of bullying occurs, it must still fit the general description above to be considered bullying.

If you believe that your child is being bullied:

Let the school know. Frequently, students or parents are hesitant to notify the school when bullying may have occurred. There are four options by which you can inform the school of a bullying incident;

- Call the school directly
- Call the VUSD Hotline/Message Phone – 559-730-7999

What you can expect of us:
Our schools take reports of bullying seriously. When students report that they are being bullied, you can be assured that we will

- Investigate the situation, and take action to stop the bullying behavior
- Counsel/discipline the student who engaged in bullying behavior
- Support the student who was the victim of bullying

What we’re doing to create schools with less bullying

VUSD recognizes the need to provide education and interventions to minimize the number of bullying incidents in its schools and has implemented the following program to address this issue:

- Olweus Anti-Bullying Program which instructs staff and students in recognizing the causes and effects of bullying on the victim, the bully, and the school community in general. Olweus establishes the groundwork to a safe and supportive school climate.

If you have questions about our bullying policy, please contact your child’s school.

Sincerely,
