The Bonds, in the amount set forth in Exhibit A-1, will be issued for the purpose of financing the Projects on a long-term basis and certain of the proceeds of such debt obligations may be used to reimburse the District for these expenditures.

The Board hereby declares the District’s official intent to use a portion of the proceeds of the Bonds to reimburse the District for the Reimbursement Expenditures. The foregoing statement is a declaration of official intent that is made under and only for the purpose of establishing compliance with the requirements of Treasury Regulations section 1.150-2.

Necessary site preparation/grading/restoration may occur in connection with new construction, reconstruction, rehabilitation or replacement, furnishing and equipping, including ingress and egress, removing, replacing or installing irrigation, utility lines, trees and landscaping, relocating fire access roads, and acquiring any necessary easements, leases, licenses, or rights of way to the property.

Additional Specifications

Listed projects may be completed at any and all school sites where such project is determined necessary. Where economically feasible, buildings, fixtures, and equipment may be
replaced rather than modernized, renovated, or repaired. Each project is assumed to include its share of costs of the election and bond issuance, legal fees and expenses, architectural, engineering, and similar planning costs, construction management, Project staff, staff training expenses associated with new bond-funded equipment and systems, and a customary contingency for unforeseen design and construction costs. In addition to the projects listed above, the Projects also include the acquisition of land, instructional, maintenance and operational furniture and equipment, payment of the costs of preparation of all facilities planning and project implementation studies, feasibility and assessment reviews, master planning, environmental studies, and temporary housing for dislocated programs or activities caused or necessitated by construction projects. Listed projects, repairs, improvements, rehabilitation projects, and upgrades will be completed only as feasible, and the Project List does not imply a particular prioritization among such improvements, which remains the province of the Board by subsequent action.

**Single Purpose.** All of the purposes enumerated in this proposition shall be united and voted upon as one single proposition, pursuant to Section 15100 of the Education Code, and all the enumerated purposes shall constitute the specific single purpose of the Bonds and proceeds of the Bonds shall be spent only for such purpose.

**Other Terms of the Bonds.** When sold, the Bonds shall bear interest at an annual rate not exceeding the statutory maximum. The Bonds may be issued and sold in several series and in accordance with a plan of finance determined by the Board pursuant to requirements of law.

**Project Requiring State Matching Funds.** Approval of the District’s Bond Measure does not guarantee that the proposed District Projects that are the subject of the Measure will be funded beyond the local revenues generated by the Measure. Some of the District’s projects may assume the receipt of state matching funds, which could be subject to appropriation by the Legislature or approval of a statewide bond measure.

EXHIBIT B

TAX RATE STATEMENT
VISALIA UNIFIED SCHOOL DISTRICT

An election will be held in the Visalia Unified School District (the "District") on November 6, 2018, to authorize the sale of up to $105,300,000 in bonds (the "Bonds") of the District to protect quality education with funding that cannot be taken by the State, by upgrading classroom, labs and computer systems to support programs in science, technology, English, arts and math; and upgrading and constructing high school classroom and other school facilities to prevent overcrowding; and modernizing and constructing classrooms and educational facilities to meet current safety codes; with independent oversight, no money for administrators’ salaries, and all funds staying local. Specifically, Bond proceeds shall be utilized for the purposes of acquisition, construction, renovation, furnishing, and equipping of school facilities, support facilities, and equipment.

If the Bonds are authorized and sold, debt service thereon will be payable from the proceeds of tax levies made upon the taxable property in the District. The following information is provided in compliance with Sections 9400-9404 of the Elections Code of the State of California. It is anticipated that the District will sell the Bonds in separate series.

1. The best estimate of the average tax rate that would be required to be levied to fund the Bonds issued during the life of the Bonds, based on estimated assessed valuations available at the time of filing of this statement, is 3.59¢ per $100 ($35.96 per $100,000) of assessed valuation. The final fiscal year in which the tax is anticipated to be collected is 2048–2049.

2. The best estimate of the highest tax rate that would be required to be levied to fund the Bonds, based on estimated assessed valuations available at the time of filing of this statement, is 3.60¢ per $100 ($36.00 per $100,000) of assessed valuation, which would occur in fiscal years 2021–2022 and 2041–2042.

3. The best estimate of total debt service, including principal and interest, that would be required to be repaid if all the Bonds are issued and sold is $234,345,298. This estimate results in a debt service to principal ratio of 2.23:1, which is significantly less than the maximum ratio of 4.00:1 allowed by State law. This estimate is based on the assumption that interest rates will increase over time, and the Bonds will have a maximum term of 30 years per series.

Voters should note that the estimated tax rates are based on the ASSESSED VALUE of taxable property on the county’s official tax rolls, not on the property’s market value. Property owners should consult their own property tax bills to determine their property’s assessed value and any applicable tax exemptions.

Attention of all voters is directed to the fact that the foregoing information is based upon the District’s projections and estimates only, which are not binding upon the District. The actual tax rates and the years in which they will apply may vary from those presently estimated, due to variations from these estimates in the timing of Bond sales, the amount of Bonds sold and market conditions.
interest rates at the time of each sale, and actual assessed valuations over the term of repayment of the Bonds.

The dates of sale and the amount of Bonds sold at any given time will be determined by the District based on the need for construction funds and other factors, including the legal limitations on bonds approved by a 55% vote. The actual interest rates at which the Bonds will be sold will depend on the bond market at the time of each sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the District as determined by the County Assessor in the annual assessment and the equalization process.
